1. Nature of operations and going concern

Trojan Gold Inc. ("TGI" or the "Company") was incorporated in 2012 under the provisions of the Business Corporations Act (Alberta) and is trading on the Canadian Securities Exchange ("CSE") under the symbol 'TGII' and on the OTCQB Venture Market (ticker symbol "TRJGF"). The Company is engaged in the acquisition and exploration of mineral resource properties in Canada and the Dominican Republic. Substantially all of the Company's efforts are devoted to financing, exploring and developing these properties. The Company's head office is 401 - 82 Richmond Street East, Toronto, Ontario, M5C 1P1.

These unaudited condensed interim financial statements have been prepared on a going concern basis which assumes that the Company will continue in operations for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. Realization values may be substantially different from carrying values as shown and the financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern.

The mineral properties of the Company are in the exploration stage and, as a result, the Company has no source of operating cash flow. The exploration and development of the Company's properties depend on the ability of the Company to obtain financing. The Company has incurred losses in previous periods and has not yet achieved profitable operations, with a net loss of \$392,634 for nine months ended September 30, 2022 (nine months ended September 30, 2021 - loss of \$275,531). At September 30, 2022, the Company had no source of operating cash flow and an accumulated deficit of \$2,161,070 (December 31, 2021 - \$1,768,436). At September 30, 2022, the Company had working capital of \$321,575 (December 31, 2021 - \$803,601). These conditions raise material uncertainties as to the Company's ability to continue as a going concern.

The Company's future viability depends upon the acquisition and financing of mineral exploration or other projects. If the mineral projects are to be successful, additional funds will be required to develop these resources and to place them into commercial production. The only source of future funds presently available to the Company is through the issuance of common shares or through the sale of an interest in any of its properties or assets in whole or in part. The ability of the Company to arrange such financing or the sale of an interest will depend, in part, on prevailing market conditions as well as the business performance of the Company. There can be no assurance that the Company will be successful in its efforts to arrange the necessary financing, if needed, on terms satisfactory to the Company. If additional financing is arranged through the issuance of shares, control of the Company may change and shareholders may suffer significant dilution.

The outbreak of the novel strain of coronavirus, specifically identified as "COVID-19", has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and social distancing, have caused material disruption to businesses globally resulting in an economic slowdown. Global equity markets have experienced significant volatility. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions. The duration and impact of the COVID-19 outbreak is unknown at this time, as is the efficacy of the government and central bank interventions. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Company in future periods. The Company is monitoring the business environment as a result to ensure minimal disruption to business operations. The Company continues to be in operations as of the current date.

2. Significant accounting policies

Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC"). These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC.

The policies applied in these unaudited condensed interim financial statements are based on IFRSs issued and outstanding as of November 29, 2022, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim financial statements as compared with the most recent annual financial statements as at and for the year ended December 31, 2021. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending December 31, 2022 could result in restatement of these unaudited condensed interim financial statements.

Basis of presentation

These unaudited condensed interim financial statements have been prepared on a historical cost basis, with the exception of financial instruments classified at fair value through profit or loss ("FVTPL"). In addition, these unaudited condensed interim financial statements have been prepared using the accrual basis of accounting except for cash flow information.

Functional and presentation currency

These unaudited condensed interim financial statements are presented in Canadian Dollars, which is also the functional currency of the Company. All financial information is expressed in Canadian Dollars otherwise stated and has been rounded to the nearest dollar.

Adoption of new standards

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods commencing on or after January 1, 2022. Many are not applicable or do not have a significant impact to the Company. There are no relevant IFRS's or IFRS interpretations that are effective that would have a material impact on the Company.

New standards not yet adopted and interpretations issued but not yet effective

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods commencing on or after January 1, 2023. Many are not applicable or do not have a significant impact to the Company and have been excluded.

3. Investment in Tashota Resources Inc.

On January 13, 2021, the Company entered into a debt settlement agreement with Tashota Resources Inc., related Company by virtue of a common officer and director, to settle \$192,488 receivable as on the date of the agreement. The Company received 1,924,880 common shares of Tashota Resources Inc at a price of \$0.10 per share. The Company classified the investment in Trojan as a financial asset at fair value through profit and loss (FVTPL). As at September 30, 2022, the shares were valued at \$0.15 per share (December 31, 2021 - \$0.15 per share), based on the share price of a recent private placement completed by Tashota Resources Inc. As such, the Company recognized an unrealized gain of \$nil.

	As at September 30, 2022	As at December 31, 2021
Tashota Resources Inc - 1,294,880 common shares	\$ 288,732	\$ 288,732

Fair values

Set out below is a comparison, by category, of the carrying amounts and fair values of all of the Company financial instruments that are carried in the financial statements and how the fair value of financial instruments is measured.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy establishes three levels to classify the inputs to valuation techniques used to measure fair value. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are quoted prices in markets that are not active, quoted prices for similar assets or liabilities in active markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data or other means. Level 3 inputs are unobservable (supported by little or no market activity). The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs.

Fair value hierarchy

4. Exploration and evaluation assets (continued)

Hemlo South Property, Ontario

The Hemlo South Property comprises 8 mining claims and is situated in the Hemlo Gold Camp, 35 kilometres east of Marathon.

On March 1, 2017, TGI entered into a Letter of Intent with Tashota Resources Inc (“TRI”) (the “TGI-TRI Option”) whereby TRI granted TGI the right to acquire a 50% interest in the property by:

- ◆ Issuing to TRI 1,250,000 common shares of TGI (issued).
- ◆ Making, or reimbursing TRI for making, certain cash payments required under the TRI-Wahl Option, totaling \$50,000. If TRI makes such payments in cash, and by mutual agreement, TGI can elect to reimburse TRI by issuing common shares from treasury with a deemed value of \$0.10/share (completed).
- ◆ Incurring or reimbursing TRI for exploration expenditures on the property totaling \$250,000 (completed).

The property contains a 3% NSR royalty, of which 2% can be purchased for \$2,000,000 at any time.

TRI and TGI share a common officer and director.

On January 22, 2021, TRI and the Company entered into a joint venture agreement (the “**Joint Venture Agreement**”) which sets out the terms of their joint venture arrangement regarding the Hemlo South Property. The Joint Venture Agreement provides that each of the Company and TRI has a 50% working interest in the Hemlo South Property, which is subject to the NSR royalty in favour of Wahl.

The Joint Venture Agreement provides for the following: (i) management and budget control is to be by a joint management committee; (ii) each party will have an initial WI of 50% and a deemed initial contribution of \$450,000; (iii) TRI and the Company will be joint operators, unless the interest of either party is diluted below 50%, in which case, the party with the larger WI will have the right to become the operator; (iv) budgets will be set annually, or more frequently if requested by either party; (v) technical reports will be prepared in a timely manner on all activities, submitted to Wahl and reported to the MNDM for assessment credit; (vi) if either party (a “Non-Contributing Party”) is unable or unwilling to provide its pro rata share of an approved budget, the other party (the “Contributing Party”) will have the right to provide the difference between the amount which the Non-Contributing Party has contributed to an approved budget, and its pro rata share of the approved budget; and (vii) the WI of a Non-Contributing Party shall be diluted according to the industry-standard formula.

- i) In April 2021, the Company completed a private placement consisting of 950,000 units at a price of \$0.10 per unit, and 600,000 flow-through units, at a price of \$0.10 per flow-through unit, for aggregate gross proceeds of \$155,000. In connection with the offering, the Company issued 40,000 common shares as brokerage compensation and paid commission of \$4,000. The 40,000 common shares issued as brokerage compensation were valued at \$2,400.

Each unit consisted of one Common Share and one Common Share purchase warrant, each warrant entitling its holder to purchase one Common Share at a price of \$0.15 per Common Share, expiring on December 31, 2023. Each flow-through unit consisted of one Common Share to be issued as a flow-through share and one common share purchase warrant, each whole warrant entitling its holder to purchase one Common Share at a price of \$0.15 per Common Share until December 31, 2023. These warrants were assigned a value of \$58,700 using the Black-Scholes valuation model. The underlying weighted average assumptions used in the estimation of fair value in the Black-Scholes valuation model are as follows: risk free rate of between 0.29 and 0.30%; expected life of between 2.67 and 2.69 years; expected volatility: between 131% and 137%; and a weighted average share price: \$0.06.

All warrants issued are subject to acceleration, such that should the Common Shares trade on an exchange for five (5) or more consecutive days at a price of \$0.30 or greater; the Company may, at its option, provide written notice to the holder requiring that the warrants be exercised within 30 days of the date of the notice, failing which the warrants will immediately thereafter expire.
